Findability: Why Search Engine Optimization is Dying

He is the author of "Findability: Why Search Engine Optimization is Dying + 21 New Rules of Content Marketing for 2013 and Beyond" and produces a leading online marketing blog, publishing 2 articles per week on average around the topics of search engines, internet marketing, business websites, social media and business.

Findability Why Search Engine Optimization is Dying 21 New ...

External findability is the domain of Internet marketing and search engine optimization (SEO) tactics. External findability can be very influential for businesses. Smaller companies may have trouble influencing external findability, due to being less aware to consumers. Other means are taken to make sure that they are found in search results.

Findability - Wikipedia

Findability allows a site visitor to rerun a previously saved search through saved records or bookmarks. Good findability allows a user to locate specific information even by similar spelling or concepts. Some examples of good findability are: Search term suggestions that pop up as a user begins to type in a term.

Findability vs. Searchability - What's the Difference and ...

The world of search engine optimization is complex and ever-changing, but you can easily understand the basics, and even a small amount of knowledge can make a big difference. Free SEO education is also widely available on the web, including in guides like this!

The Beginner's Guide to SEO: Search Engine Optimization - Moz

Randy Milanovic's book Findability: Why Search Engine Optimization is Dying raises a combination of interesting points to consider alongside practical take-away elements to implement. Offering that medley in an approachable 80-page volume makes this book an ideal read to stay grounded in reality and humans in an age when SEO often takes over the content of lesser websites.
