Price Action Trading: How to Identify and Follow the Trend (My Secret Technique)

Basic Definition: Price Action Trading (P.A.T.) is the discipline of making all of your trading decisions from a stripped down or "naked" price chart. This means no lagging indicators outside of maybe a couple moving averages to help identify dynamic support and resistance areas and trend.

Price Action Trading Explained » Learn To Trade The Market

Price action gives structure to the forex market. You can't predict with 100% accuracy where the market will go next. However with price action, you can, to an extent predict where the market can potentially go. This is because price action brings structure.

Price Action Trading Course (LEARN FOREX PRICE ACTION)

Price action has been around for hundreds of years and whilst computers are now in the markets more than they have ever been, price action trading is the most common form of trading amongst professional traders. Price Action trading involves analyzing just the raw price action data on a clean chart with no indicators whatsoever.
